INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of the Greensboro City Directory, present to subscribers and the general public, this, the 1930 edition of the Greensboro Directory.

Confidence in the continued growth of Greensboro's industry, population and wealth, and in the advancement of its civic and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Greensboro to the world.

The enviable position occupied by HILL'S directories in the estimation of the public, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Greensboro Directory will fulfill its mission as a source of authentic information pertaining to the city.

Population

The estimated population of Greater Greensboro is 60,426, based on the number of individuals' names in the alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory, and, likewise, in the population estimate.

Four Major Departments

The several essential departments are arranged in the following order:—

THE BUYERS' GUIDE, pages 25 to 92, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Greensboro. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and, as such, merits a survey by all buyers eager to familiarize themselves with sources of supply. The city's activities, in many interesting phases, are authentically pictured. In a large commercial and industrial center like Greensboro, the necessity of having this kind of information immediately available, is very great, and frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations is included in pages 93 to 524. A feature of this section is the inclusion of the wife's name in parentheses following that of the husband.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 525 to 674. In this section the named streets and avenues are arranged in alphabetical order, followed by the numbered streets in numerical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 677 to 731. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

Municipal Publicity

The directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Greensboro, for business men, everywhere, realize that the city directory represents a community as it really is.

The Greensboro Directory Library

Through the courtesy of the publishers of the Greensboro City Directory, a Directory Library is maintained in the offices of the Greensboro Chamber of Commerce, for free reference by the general public. This is one of nearly 500 Directory Libraries installed in the chief cities of the United States and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY CO., Inc.,
Publishers.

GREENSBORO

“Pivot of the Piedmont”

Statistical Review

Form of Government—Council-manager.

Population—53,422 (1930 U. S. Census preliminary report for city proper).

Area—17 square miles.

Altitude—843 feet.

Climate—Mean annual temperature, 58.8 degrees; average annual rainfall, 46.76 inches.

Parks—1,500 acres.

Assessed Valuation—\$106,500,000.

Financial—Bank resources, \$7,303,483.07, with clearings of \$309,123,000 in 1929.

Post-office Receipts—\$464,593 (1929).

Telephones in Service—9,672.

Churches—57, all denominations.

Building and Construction—Value of building permits, \$3,133,865 (1929).

Industry—141 establishments employing 8,700 workers, and having products valued at \$47,000,000 annually. Annual industrial production value Guilford Industrial Area, \$80,310,000.

Trade—Retail territory serves 562,000 people in a trading area having a radius of 50 miles. Jobbing territory serves 790,000 people within a radius of 75 miles.

Newspapers—2 dailies.

Hotels—8, with total of 900 rooms.

Railroads—2: Southern and Atlantic & Yadkin.

Amusements—8 theatres, with total seating capacity of 6,000 persons.

Hospitals—8, with 400 beds.

Education—22 public schools, including 1 senior high and 2 junior high. Number of pupils in public schools, 10,000. Number of public school teachers, 329. Value of public school property, approximately \$5,000,000.

Volumes in Libraries—136,000.

City Statistics—Total street mileage, 270, with 138 miles paved. Miles of gas mains, 96; of sewers, 130, and of electric street railway, 16. Capacity of water works (municipal), 1,023,000,000 gallons; daily average pump, 4,000,000 gallons, with 166 miles of mains, and plant valued at \$2,750,000. Fire department employs 47 men, with 2 autos, 6 engines, 6 hose and chemical wagons and 2 hook-and-ladder trucks, in 5 station houses. Value of fire department with property, \$350,000. Police department has 58 men, with 1 station and 11 pieces of motor equipment.

The Regular Northbound Mail Plane at the Greensboro Airport, with New York-New Orleans Mail. Four Planes Arrive and Depart Daily.

General Greene Monument

History

On March 15, 1781, the Battle of Guilford Courthouse was fought, five miles from what is now Greensboro. So intent was General Nathaniel Greene on crippling Cornwallis that he little realized he was to title a metropolis of the future. Although the battle was not decisive, Gen. Green fought so fiercely that Cornwallis entered the Battle of Yorktown unable to stem the triumphant wave of the American forces, and the victory at the end of the Revolution has been laid by authorities to the result of the Battle of Guilford Courthouse.

Guilford County was settled in 1772 by Scotch-Irish and German stock from Pennsylvania, and English and Scotch Highlander immigrants. It was named for Frederick, Earl of Guilford, better known as Lord North. Its people were simple and rural. They possessed no large estates or wealth. They were intensely religious, democratic, arduous in the pursuit and advancement of education, energetic and thrifty, home-loving and liberty-seeking. The original county seat was Martinsville, where was fought the Battle of Guilford Courthouse.

In 1808, Greensboro was founded as the county seat of Guilford and named for the famous General Greene. The town site was located in the exact center of the county. Commissioners paid Ralph Gorrell \$98 for 42 acres of land, and the new county capital and courthouse was laid off.

Almost from its beginning Greensboro forged ahead in education. Dr. David Caldwell established his noted "Log College," the forerunner of several academies and schools founded in 1816, 1820, 1833 and 1836, leading up to the chartering in 1838 of

Greensboro Female College, the grading of public schools in 1872, the establishment of North Carolina College for Women in 1892, and the building of three Negro colleges.

Prior to 1860 the city was Whig, and opposed to secession. John A. Gilmer, of Greensboro, was offered a place on Lincoln's cabinet, but the city, of course, finally supported the state and the Confederacy. It was at Greensboro that Gen. Joseph E. Johnston disbanded his army, following his surrender to Sherman, and it was in the railway station here that Jefferson Davis held his last cabinet meeting. Greensboro's citizens have always taken a prominent part in state affairs. John M. Morehead, as governor, was one of the state's foremost proponents of good roads as early as 1840.

Greensboro had a cotton mill as early as 1834, but it was in Reconstruction days that it began to be an important commercial and industrial factor. Its central position in the state then, as now, was its chief reason for growth. Here converged the crossroads of the state. In 1856 came the first railroad.

At the turn of the century Greensboro's real growth began. In 1892 came Caesar and Moses Cone to establish their cotton mills, and to begin such well-balanced industrial development as is rarely seen. Steadily ahead Greensboro has forged industrially, commercially and educationally, capitalizing its advantages of accessibility, climate, ideal labor conditions, agriculture, power, transportation, raw materials and a spirit of progressiveness. Let us look at Greensboro today.

Location

Greensboro is the pivot and focal point of the rich "Piedmont" section

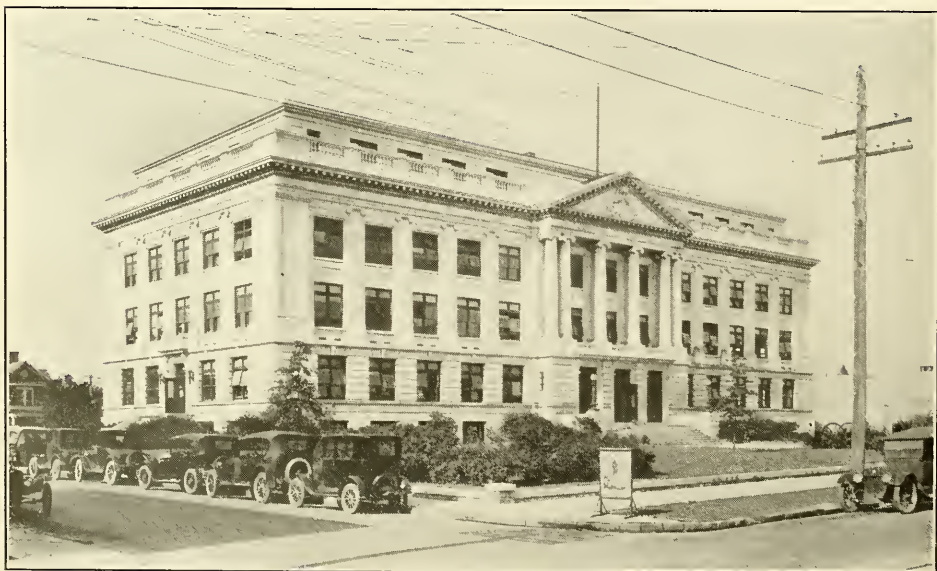

Southern Railway Passenger Station

of the two Carolinas and a part of Virginia. It is equidistant from Atlanta and New York, each being twelve hours by rail and five by air. Here, also, crosses the main east-west traffic arteries of the state and one of the main north-south highways. Other important roads converge at Greensboro to make it the hub of highway transportation.

The Piedmont area of North and South Carolina contains 42% of the population of the two states, and produces over 73% of their industrial output. From Greensboro into all sections of the Piedmont diverge the belts of traffic, over railroads and highways. That Greensboro is the

logical, dominant "pivot" of this area is demonstrated by the fact that over 2500 traveling salesmen and agents have made their homes and headquarters here.

Two railroads serve Greensboro: the Southern and the Atlantic & Yadkin. Forty-eight passenger trains arrive and depart daily in six directions from a new and modern \$1,000,000 station. The main north and south double-track line of the Southern converges with the main east and west state-wide line of the Southern at Greensboro. All important grade crossings have been separated to safeguard life and property and to speed traffic. Sixty-five buses leave here

The New Guilford County Court House of Greensboro, One of the Finest Public Buildings in North Carolina.

daily for every section of the state.

Two north-bound and two south-bound air mail planes leave the Greensboro airport daily. A letter mailed here after business hours will be in New York or Atlanta the following morning by rail, and in Chicago that morning by air.

Municipal Government

Greensboro has been especially fortunate in its selection of those men in whose hands its affairs of government are placed, and great municipal progress has been made by means of the complete confidence held by the taxpayers in the integrity and ability of the municipal officials. With a councilmanic-city manager form of

Greensboro has good water, and plenty of it, carefully safeguarded as to purity and sanitary distribution. The water works have a capacity of one billion, twenty-three million gallons, with a twenty-one million gallon reservoir for filtered water, a supply sufficient to serve the city for many years to come.

The sewer system is comprehensive, well-planned and adequate, with 130 miles of mains laid. A highly effective modern disposal system is in operation, and enlargements to accommodate future needs are under construction.

A well-planned program of street-widening, as well as paving, has been

The King Cotton Hotel

government and non-partisan elections, modern machinery is provided for the efficient dispatch of the city's business, which insures the services of business leadership of the highest character. At the helm of Greensboro's municipal government have been business men of the highest character and business judgment, often at great personal sacrifice to themselves. Among those who have served on the city council are men who have made outstanding successes of their own business. These men have brought to the city a managerial skill never possessed by cities influenced by petty partisan politics. As a result the physical facilities of Greensboro are strikingly effective.

and is being carried on under a comprehensive city plan designed to provide Greensboro unusually adequate intra-city transportation facilities. The mileage of paved streets in the corporate limits has steadily increased from 32 miles in 1922 to 138 miles in 1929. Thoroughly modern automatic traffic control systems have been installed at twenty-five possible danger points. The streets, totalling 270 miles, are well-kept and clean.

Greensboro's public school system is a point of genuine pride, it having been recently rated 96.4 out of a possible hundred by the North Carolina Department of Education. The 10,000 school children have 22 modern school

Y. M. C. A.

Y. W. C. A.

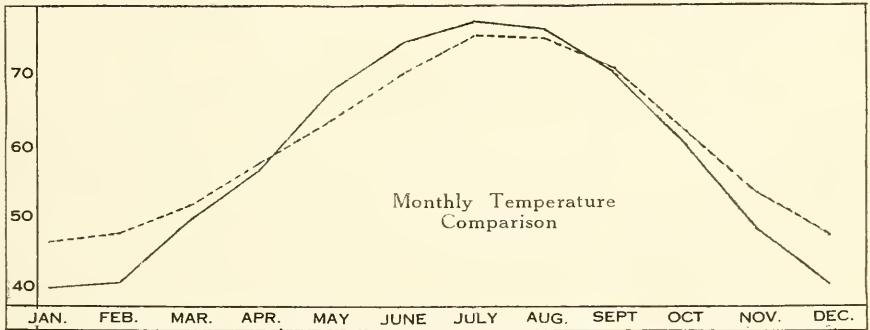

buildings, including two junior high schools and a new senior high school. The municipal school plant has a total valuation of about \$5,000,000. There are 329 instructors, and the annual budget is three-quarters of a million dollars. The excellent collegiate educational structure will be commented on later.

An up-to-date fire department consists of 47 men, efficiently governed and equipped with modern apparatus. Greensboro has one of the most complete fire alarm systems in use today. Every part of the city and many important buildings are covered with modern alarm boxes. Greensboro's record in reduction of fire losses is outstanding. In 1927 the inter-city award was won for the lowest fire loss of any city in its class in the United States, and in 1928 and 1929 honorable mention was received in the same contest. There are five station

A Healthful Place to Live

Greensboro is blessed with a mild, life-prolonging, delightful climate. Its average monthly temperature compares favorably with that of famous European resorts along the Mediterranean shores of western Italy and southern France. Greensboro has neither bitter winters nor oppressive summers, but rather only a moderate fluctuation from the coldest to the warmest days.

Greensboro's altitude (843 feet) and drainage practically eliminate "low country" ailments such as malaria fevers. The air is clear and bracing, with no violent atmospheric disturbances. The Government Weather Bureau figures show that Greensboro has more clear days (136 per year) than Jacksonville (129), Miami (99), Tampa (126), Atlantic City (123), or Asheville (124). Greensboro has com-

houses strategically located in the city, and the equipment has a value of \$350,000.

Greensboro's police department comprises 58 officers and men. It is provided with modern physical facilities, radio intelligence equipment, a complete and efficient identification bureau, and a comprehensive system of city-wide telephone signals with centralized control. Greensboro has long been kept free from lawlessness such as prevails in many other cities.

Two essential steps have been taken in planning for the future—the adoption of a comprehensive city plan administered by a competent planning commission, and the enforcement of a modern building code. Zoning laws have been passed to maintain desirable neighborhood classifications. Municipal activity has been governed insofar as possible with an eye to the future growth of Greensboro.

paratively little snowfall (total average, 6.8 inches per year) as compared with such centers as Atlantic City (16.9), Denver (40.4), Asheville (11), Omaha (19.9), Wilmington, Del., (44.3), and Chicago (33.7).

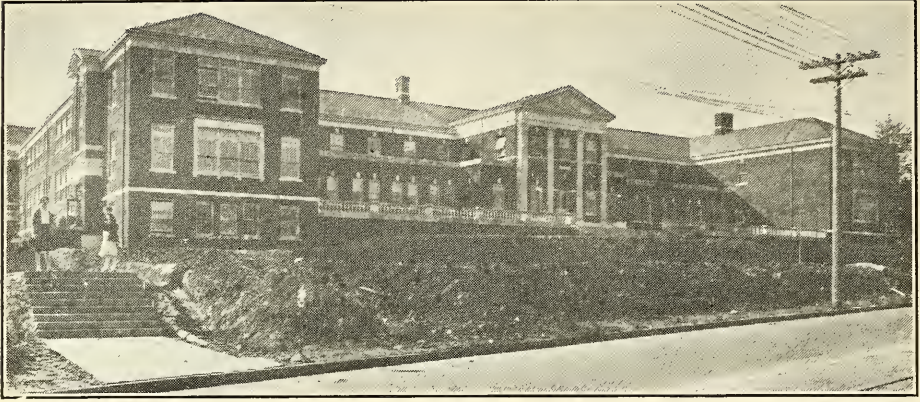

United States Weather Bureau reports for Greensboro:

Normal average temperature (annual), 58.8 degrees.

Average humidity, 53.185.

Annual precipitation, 46.76 inches.

Greensboro is only three hours' drive from those famous winter resorts—Pinehurst and Southern Pines, and only four to six hours' drive from mountain summer resorts such as Asheville, Blowing Rock, Linville, Roaring Gap and Chimney Rock. Its climate is the "happy medium" between that of these resort centers, being on the plateau between the mountains and the coastal plain. Taking advantage of this climatic ideal, a beautiful all-year resort center has been established at Sedgefield, near Greensboro, which has be-

The Curry Building at North Carolina College for Women, Home of the School of Education and of the Training School

come widely known as a golfer's and sportsman's paradise. High daytime temperatures give relief from the severity of northern winters; and low night temperatures permit comfortable sleep, in contrast to the enervating heat prevailing further south.

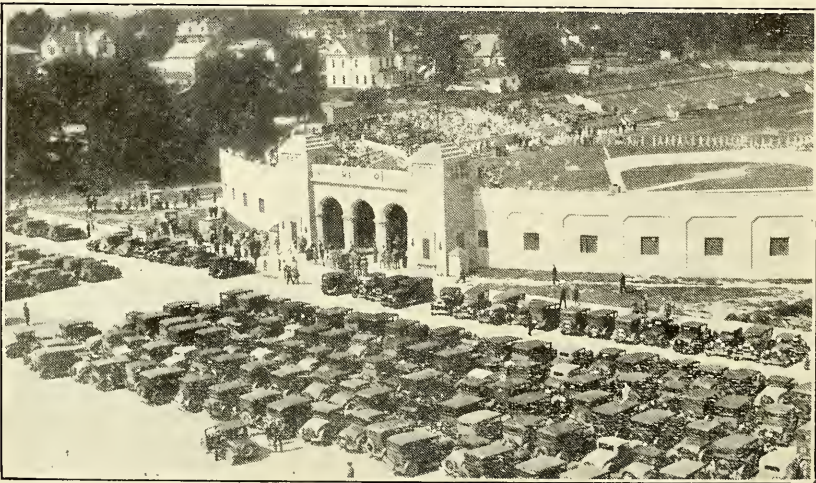

Recreational Facilities

Greensboro is the sports-lover's paradise. Golf, tennis, horseback riding, hunting of all sorts, fishing and a host of other sports are available either in Greensboro or in the immediate vicinity. A prominent part of this phase of the city's life is played by the new World War Memorial Stadium, within a few blocks of the heart of the city, which attracts many of the major college athletic events of the section, and the leading interscholastic events. The stadium seats 9,200 persons, and is equipped with modern fields for foot-

ball, baseball, track, tennis and other sports. The stadium was erected in 1927 at a cost of \$150,000, donated by citizens of the city and county.

Greensboro has one public and two private golf courses. The famous Valley Brook course at Sedgefield Inn is a championship layout, where competitions of national import are staged. The Southern Amateur Tournament was held there in 1930. The Greensboro Country Club course is one of the oldest Class "A" courses in the South. The municipal course has only been recently opened and has already proved tremendously popular. Hamilton Lakes course, an 18-hole layout of rare beauty, will be put in play in the fall of 1930, and a municipal course is under construction. The equable year-round climate here makes Greensboro ideal for golfers.

Greensboro's theatres are modern, both as to their houses and the char-

World War Memorial Stadium

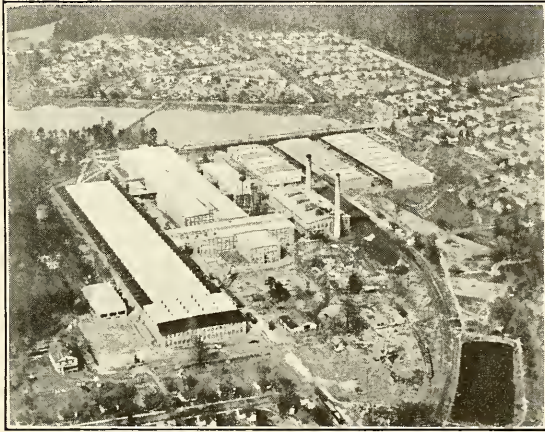

acter of their entertainment. The moving picture houses have a seating capacity of 6,000. Due in part to the local colleges, Greensboro has, for nine months of the year, the satisfying advantage of fine music, famous singers, outstanding lectures and the like. Such organizations as the Civic Music Association, the Open Forum and the Little Theatre make a real contribution to the esthetic life of the community.

About 1,500 acres of land have been set aside for parks and playgrounds in Greensboro, and the city has the reputation of having more play area per student about its public schools than any city in the country. Three Y. M. C. A.'s, Y. W. C. A., professional league baseball, public and private swimming pools, trap-shooting course and similar facilities offer a wide variety of recreational opportunities.

Its enrollment is now about 300. On the other side of Greensboro is Oak Ridge Institute, a preparatory military school for boys. It was founded in 1852, and in 1926 became a Junior R. O. T. C. unit. It now has 246 students and an adequate plant valued at \$250,000. It is a preparatory school for college and offers a commercial course.

Other institutions in Greensboro include the Greensboro Bible and Literary School, King's Business College and the Greensboro Commercial School.

Greensboro is a center of education for the Negro race as well. Here is the North Carolina Agricultural and Technical College, with a yearly enrollment of 800 and a million dollar plant. Bennett College for Women and Immanuel Lutheran College for ministers and teachers are also here.

The World's Largest Denim Mill, Located at Greensboro

Educational Facilities

An outstanding advantage of Greensboro is its extraordinary educational structure. Six thousand out-of-town students and faculty members attend its schools and colleges.

Greensboro College, organized in 1838 by leaders of the Methodist Episcopal Church, South, has an enrollment of 357 women students and assets amounting to \$1,056,000. North Carolina College for Women, created by legislative enactment in 1891, has a yearly enrollment of about 2,500, and a faculty of 178, and includes a college of liberal arts, a school of education, a school of music, a school of dramatic art, a school of commerce, a department of health, and a school of home economics. Five degrees are given, including A. B., M. A. and B. S.

Five miles west of Greensboro is Guilford College, organized by the Society of Friends (Quakers) in 1837.

Practically every religious denomination is represented among Greensboro's fifty-seven fine churches.

Commerce and Industry

Present Industrial Structure:

In Greensboro, textiles predominate, but do not dominate. Industry is well diversified. There are great cotton spinning and weaving plants; broad silk and silk hosiery mills; structural steel, foundry and machinery establishments; terra cotta and chemical works. Altogether, Greensboro's industries, totalling 141 plants, manufacture \$47,000,000 worth of goods per year. 8,700 workers are employed, who receive over a quarter of a million dollars weekly in wages.

The largest single industry is that of the Cone interests, the White Oak Cotton Mill being the largest denim mill in the world. The Blue Bell Overall Company is one of the largest overall mills in the country. Three

hosiery mills are here, Mock-Judson-Voehringer, Inc., Greensboro Full-fashioned Hosiery Mill and the Juvenile Hosiery Co. Greensboro is the largest full-fashioned silk hosiery center in the South.

Greensboro is the "home town" of Vick's Vaporub Salve, El Moro and

machines, woodworking machines and foundry products.

Numerous advantageous industrial sites are available, with adjoining railroad trackage or highways. There is a plentiful supply of native white labor, easily trained and industrious. There has never been a general industrial strike in Greensboro.

Home of the Jefferson Standard Life Insurance Company of Greensboro

El ReesO Cigars, Pomona Terra Cotta, Glascock Stoves, and a host of other products, including canton flannels and many other textile products, fabricated steel and iron, clay products, medicines, automobile bodies, elastic webbing, lumber products, fertilizers, dairy products, ice, laundry

A constant supply of power is available from almost unlimited resources, and at reasonable rates. Great resources of raw materials are close at hand.

These factors have tended to diversify Greensboro's industrial structure, as well as develop it. The city is not

dependent on any one line of manufacture, and consequently is immune from those periods of violent depression which paralyze communities in which a majority of the workers are employed in one line of work.

It is impossible to present adequately here either Greensboro's present or potential industrial advantages. Those interested may obtain from the Chamber of Commerce more detailed information. A research staff is maintained to compile intelligently specific industrial and distribution data for responsible inquirers.

Retail Trade:

Greensboro is a recognized retail center attracting partial purchases from an area of from 57 to 75 miles in several directions. In the 12 coun-

of the most powerful in the state. The Record is a fast-growing and popular afternoon daily, with a circulation of 15,000.

Greensboro has ten hotels, most of which are of the modern fireproof variety, offering about 1,000 first-class rooms. The O. Henry, King Cotton and Sedgefield Inn are the most prominent.

Wholesale Trade:

Due to its strategic position in transportation and communication, and the centralization here of the business interchange of the Piedmont area, Greensboro's wholesale houses and agency representatives reach out far beyond the bounds of its retail trade. More than 1,500 traveling men have found Greensboro the most log-

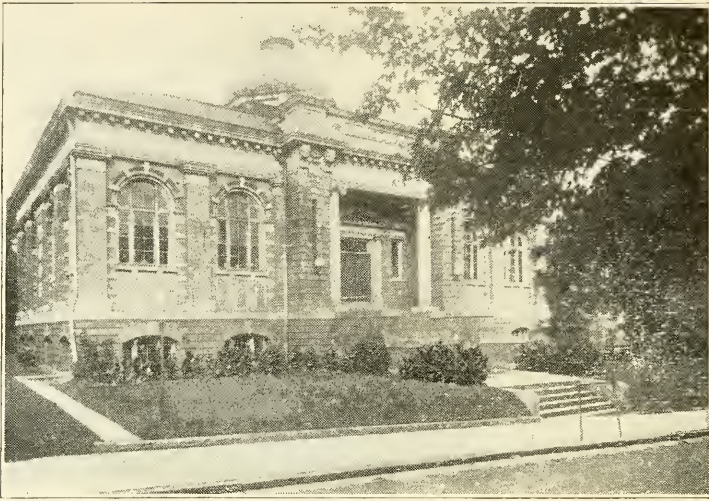

O. Henry Hotel

ties surrounding Greensboro live approximately 600,000 people, according to the 1930 preliminary Census figures. This area has a greater rural and urban purchasing power than any similar area in the Southeastern States, and more paved roads and more automobiles to enable purchasers to reach the market center.

Due to its tremendous market, the retail trade in Greensboro is of a very high type. The shops are modern, and the merchandise handled of a variety and quality above the average. Prominent in the retail life of Greensboro are the two daily newspapers and the numerous weeklies published here. The Greensboro Daily News, with a morning circulation of 40,000, is one

ical place for their homes and headquarters, a great many of them traveling from district offices located here. The city has an abundant supply of modern offices and bonded warehouse space at reasonable rents, and this fact, coupled with an advantageous position, is causing the location here of branch warehouses, district offices and agencies.

Within Greensboro's wholesale trade area of approximately 75 miles live nearly a million people, with ten towns of 10,000 or more population. In this jobbing area are 1,844 miles of paved and 665 miles of sand-clay roads, which, together with rail facilities, greatly simplify distribution and close customer contact.

Public Library

Greensboro holds the dominant place in the state, and reaches into the surrounding states, in hardware distribution. In drugs it is almost as favored, and it is particularly strong in the distribution of food products, produce, tobacco, bread, dry goods and clothing. The Chamber of Commerce has compiled exhaustive data on the consuming power and distribution advantages of Greensboro.

Commercial Greensboro:

Seven insurance firms have their home offices in Greensboro, and a number of state headquarters for out-of-state companies are located here, causing the city to be called "the Hartford of the South." Almost every type of insurance coverage is provided locally, giving Greensboro companies an annual premium income of approximately \$19,000,000; \$469,337,453 worth of life insurance alone is in force by Greensboro companies. These companies have made substantial investment in physical properties in Greensboro and the surrounding section. Their business is steady, their payrolls constant. They provide a stable and diversified commerce enjoyed by few contemporary cities.

Greensboro has adequate facilities for doing business, such as banking, transportation, communication, professional services, etc. It is a natural banking center. The North Carolina Bank & Trust Company, with its commercial branches in other North Carolina cities, administers in Greensboro the financial resources of a wide

area. The North Carolina Corporation operates industrial and investment banking establishments throughout the state, while other institutions afford Greensboro a well-rounded financial structure. There are two commercial banks with five city branches, and three industrial banks. Total savings are \$2,403,753.79; total resources are \$7,303,483.07.

The services of nationally-recognized accountants, accredited appraisers, outstanding lawyers, and technical advisers are available as a necessary business aid. The municipal government is organized and equipped to provide the physical facilities and services needed to promote and safeguard the commercial and industrial safety and progress of Greensboro.

Greensboro possesses unusually well-balanced economic advantages. All her "eggs" are not in one "basket." The sources of income, the facilities for commerce and the potentialities for progress are widely diversified, providing insurance against excessive fluctuations, booms or depressions. Greensboro is a safe, sound, secure and stable place in which to live and work.

Names Appearing in Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

NEWSPAPERS

---A 132,000 MARKET---

Guilford County should really be considered as "Greater Greensboro"—a market with 132,000 population.

The most effective and economical method of covering this rich territory is through the Greensboro Daily News and Greensboro Daily Record—with a combined A. B. C. circulation of 52,403 daily.

You can make this market YOUR market by regular and well-planned newspaper advertising.

GREENSBORO DAILY NEWS THE GREENSBORO RECORD

GREENSBORO NURSERIES

SERVICES RENDERED

Appraisals Valuations of land and buildings in any part of North Carolina, in full detailed, analytical, bound and typed form, including descriptions, photographs, plats, reference to recent sales or leases, analyses of factors of value and computations of units—or in usual short form with brief data.

Periodical checking of values for banks on mortgage loan companies of property securing loans.

Court Testimony Services as expert witness with exceptional knowledge of legal procedure and realty conditions, on value of or damages to land or buildings in Court Actions for Receiver, Appropriation, Partition, Divorce, Will Contest, Change of Street Grade, Encroachment or Specific Performance.

Arbitration Service as mediator or referee in cases of disputed valuations, terms on long-time leases or contracts, divisions of land, conditions of transfer, etc.

Taxation Examination of records and tax bills; checking of inventories, calculations, assessed value of land and buildings, corrections and adjustment of faulty entries, etc. Large sums have often been saved to tax-payers through this service.

Fees On all services, the charges are reasonable, never exorbitant, and consistent with time consumed and size of transaction—agreed upon in advance or retainer received where desired or advisable.

Preliminary conferences on probable business, by appointment, without charge.

**All Services Rendered Personally or in Connection
with Careful and Expert Associates.**

**Directory of Householders, Occupants of
 Office Buildings and Other
 Business Places**

INCLUDING

**A Complete Street and Avenue Guide
 1930**

Copyright, 1930, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numerical streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

(c) Denotes colored.

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Association of North American Directory Publishers

ADVERTISING
GREENSBORO

DO YOU KNOW THAT A COPY
OF THIS DIRECTORY OF

GREENSBORO

is being placed in the Directory Libraries and among the commercial bodies, business men's clubs, chambers of commerce and the larger business institutions throughout the United States?

No other medium on earth can convey so complete and comprehensive an index of the city, its various industries, its business, educational and religious institutions, its social life and its people.

No other medium can tell so fully of its wonderful growth, its opportunities and its possibilities for the future.

THE PUBLISHERS ARE DOING EVERYTHING
POSSIBLE TO MAKE THIS DIRECTORY A
